International cargo airport

An international cargo airport will be built
5 kilometers from NURAFSHON BUSINESS CITY,
which will serve transportation arriving in Uzbekistan.

Duty free centers

For the convenience of all arriving passengers, duty-free and shopping centers will be built near the airport. Which in turn will increase the turnover directly with Nurafshon Business City

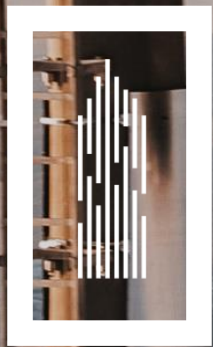

Green City

To the south of the business city of Nurafshon, a green town will be built on an area of more than 200 hectares, which is designed to accelerate the transition from traditional design and construction of buildings and the construction of buildings and structures to sustainable ones.

Tourism potential

Why us?

In Tashkent region, the population is
4,000,000 people

Convenient transport and logistics
system

Location of the largest data center

It is an important strategic city and
government project
